PROFESSIONAL SUMMARY

Adaptable Computer Engineer with hands-on experience in full-stack web development, embedded systems, AI integration, and technical support. Proven track record across customer-facing roles, hardware troubleshooting, and software projects spanning mobile apps, automation pipelines, and cybersecurity tools. Passionate about bridging the gap between hardware and intelligence to build secure, real-world solutions.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap
Backend / DB	PHP, MySQL, Firebase (Auth, Firestore, Hosting), Supabase, MongoDB (Basic)
Embedded Systems	Arduino, PIC16F877A, PIC16F84A, Microcontrollers, Sensors, Servo Motors
Mobile	Kotlin, Jetpack Compose, Android Studio, Java
AI / Automation	GPT-4, OpenAI Whisper, Playwright RPA, Make.com, Circleback, Slack Automation, n8n
Tools & Platforms	Git, GitHub, VS Code, Figma, Canva, Adobe Photoshop, Filmora, ClickUp, MS Teams
Cybersecurity	Cisco Packet Tracer, Threat Management, Network Fundamentals
Productivity	Google Workspace, Microsoft Office (Word, Excel, PowerPoint), Google Spreadsheets

PROJECTS

OriginShield — AI Content Detection Platform Live: <https://originshield.vercel.app/> GitHub: <https://github.com/wayne2604/originshield>

- Built a full-stack AI content detection platform that analyzes text, images, and URLs for AI-generated content using deep learning models.
- Implemented three dedicated API routes (`/verify/text`, `/verify/media`, `/verify/url`) with server-side provider keys and rate-limit protection.
- Integrated Sapling AI for text detection, Sightengine for image forensics, and real-time URL content extraction with confidence scoring.

Tech Stack: *Next.js, Tailwind CSS, Sapling AI, Sightengine, REST API, Vercel*

Nexus-AI — Stealth RPA & Semantic Workflow Orchestrator Live: <https://us2.make.com/public/shared-scenario/avwaALsS6Nk/integration-circleback> GitHub: <https://github.com/wayne2604/nexus-ai>

- Built a dual-layered automation engine using GPT-4 and Whisper to transcribe meetings into actionable intelligence and structured outputs.
- Developed a Playwright-powered RPA layer that emulates human-like interactions to extract recruitment data while bypassing anti-bot detection.
- Orchestrated multi-step workflows via Make.com and Circleback for seamless meeting-to-action pipelines.

Tech Stack: *GPT-4, OpenAI Whisper, Playwright, Make.com, Circleback, Slack*

Capstone: GenMIND — Interactive Learning Platform Github: <https://github.com/wayne2604/genmind>

- Developed an adaptive cognitive learning platform as a native Android application using Kotlin and Jetpack Compose.
- Integrated Firebase for real-time data storage, authentication, and user progress tracking across learning modules.
- Designed a clean, responsive mobile UI with interactive exercises and AI-driven content recommendations.

Tech Stack: Kotlin, Jetpack Compose, Android Studio, Firebase

Capstone: ZNNHS Faculty Scheduling System Live: <https://teacherschedule.vercel.app/> Github: <https://github.com/wayne2604/teacher-scheduler>

- Developed a full-stack web application to streamline academic timetabling for a local high school.
- Built an admin dashboard for managing faculty schedules, subject assignments, and conflict detection.

Tech Stack: PHP, MySQL, HTML5, CSS3, JavaScript

Capstone: PeerLink Navigator System Live: <https://peerlink-mu.vercel.app/> Github: <https://github.com/wayne2604/peerlink>

- Built a web-based peer counseling platform connecting students with trained Peer Listeners for anonymous mental health support.
- Implemented secure user authentication, anonymous session management, and a referral tracking system.

Tech Stack: PHP, MySQL, HTML5, CSS3, JavaScript

Viewvie App — AI-Powered Movie Recommender Github: <https://github.com/wayne2604/viewvie-ai>

- Developed a movie app similar to Netflix featuring an AI chatbot that recommends films based on the user's mood.
- Integrated an AI conversational interface with a dynamic movie catalog and user preference tracking.

Tech Stack: Kotlin, Android Studio, AI Chatbot Integration

Car Rental Hub Website Live: <https://car-rental-hub-two.vercel.app/> Github: <https://github.com/wayne2604/car-rental>

- Built a full-stack PHP and MySQL web platform that streamlines real-time vehicle reservations and rental management.
- Implemented booking workflows, inventory tracking, and a responsive front-end interface for seamless user experience.

Tech Stack: PHP, MySQL, HTML5, CSS3, JavaScript

WORK EXPERIENCE

Support Role

Balancer — Remote | February 2026 – Present

- Conducted thorough research and managed accurate data entry tasks to support organizational goals.
- Utilized automation techniques and tools to streamline workflows and improve task efficiency.

OJT — Technical Support Intern

Sangguniang Panlungsod, Dapitan City — Philippines | July 2025 – August 2025

- Completed a required 240-hour internship, troubleshooting and repairing hardware including computers and printers.
- Contributed to visual and creative projects by producing graphic designs for office use.

Tech Support Specialist

PhilEx Logistics — Philippines | 2023 – 2024

- Provided technical support to promptly resolve user issues and maintain optimal system efficiency.
- Strengthened core problem-solving capabilities through consistent troubleshooting and technical maintenance.

Retail Sales / Customer Service Associate

Tourney Biker Shop — Philippines | 2020 – 2023

- Managed daily point-of-sale transactions and tracked store inventory to ensure smooth shop operations.
- Delivered exceptional customer support, actively assisting clients with product inquiries and driving retail sales.

EDUCATION

Jose Rizal Memorial State University

Bachelor of Science in Computer Engineering | 2022 – 2026

Zamboanga del Norte National High School

General Academic Strand (Senior High School) | 2020 – 2022

Gulayon Integrated School

CERTIFICATIONS & TRAINING

- Introduction to Visual Graphic Design — TESDA — 2026
 - Establishing & Operating MSMEs — TESDA — 2025
 - Cyber Threat Management — Cisco Networking Academy — 2025
 - Introduction to Cybersecurity — Cisco Networking Academy — 2025
 - Introduction to IoT — Cisco Networking Academy — 2025
 - AI Fundamentals — IBM SkillsBuild — 2025
 - Getting Started with Cisco Packet Tracer — Cisco Networking Academy — 2025
 - C++ Intermediate — Sololearn — 2023
 - Introduction to C++ — Sololearn — 2023
 - Introduction to Python — Sololearn — 2023
-

SOFT SKILLS

Communication • Problem-Solving & Debugging • Adaptability • Time Management • Teamwork & Collaboration • Technical Troubleshooting • Customer Service

LANGUAGES

Filipino — Native **English** — Intermediate (Reading, Writing & Communication)
